PRESS RELEASE

Inaugural Seminar at New Facility is Largest on Record

For immediate release – April 18, 2016

On Saturday, April 16, 2016, Timberhaven Log & Timber Homes hosted its largest planning & construction seminar to date, when 74 log home enthusiasts gathered to gain a better understanding of the company's log home design and building processes. Guests from Pennsylvania, Maryland, Ohio, New York, New Jersey, Delaware, Virginia, South Carolina and Georgia traveled to Middleburg, PA on Saturday for the inaugural, one-day event.

From concept through construction Timberhaven's professional staff informed attendees how to compare log home manufacturers, what considerations should be made when finalizing a design and purchasing land, and walked attendees step by step through the manufacturing process. Guests toured the new manufacturing facility on 1081 Salem Church Road, Middleburg and had an opportunity to see first-hand how the company's logs are engineered, planed, profiled, and assessed for quality per Log Home Council's grading standards. Insights were also shared regarding building site preparations and delivery day techniques.

Timberhaven has hosted multiple events since its inception in April 2013, but a crowd of this magnitude has not been witnessed in a log home industry event, similar to this seminar, in nearly a decade.

Timberhaven Log & Timber Homes, LLC provides quality, affordable kiln-dried log homes, timber frame homes, and log cabins. The company is known for taking great time and energy to make sure that every attention to detail has been met to provide the best value there is in log home living. Timberhaven's highly trained and skilled professionals, log home manufacturing process and kiln-dried engineered / traditional solid logs are second to none in the log home industry.
