PRESS RELEASE

Timberhaven Hosts Meeting, Introduces New Designs & Websites

For immediate release: Timberhaven Log & Timber Homes hosted their 5th Annual Sales Meeting in Middleburg, PA/Lewisburg, PA on Friday, August 4th and Saturday, August 5th, 2017. More than 50 dealers from 16 different states plus 2 international dealers from Canada were in attendance.

Initially, at the company's manufacturing facility in Middleburg, Timberhaven's lead handcrafters performed a timber frame handcrafting and assembly demonstration. Then a representative from James Hardie helped the dealers understand standard installation practices and to discover ways Hardie Board can be incorporated into a hybrid or timber frame home.

Later that evening, the dealers reconvened for a social event at the La Primavera Italian Restaurant in Lewisburg. During the gathering, multiple vendors (from Andersen Windows, Therma-Tru Doors, Tamko Shinkles, CTA Q8 Log Oil along with several others) were available to discuss and showcase their products and services.

On Saturday, the group joined forces for sales development training and to learn about Timberhaven's most significant announcements: two new timber frame standard designs, a new company website and a new presentation of plans website.

- [The Legacy Timber Frame Standard Design](#)
- [The Heritage Timber Frame Standard Design](#)
- [Website](#)
- [Presentation of Plans Website](#)

These timber frame designs and websites were developed in an effort to reciprocate increasingly growing consumer demand.

Timberhaven Log & Timber Homes, LLC provides premium quality, kiln-dried log homes, log cabin, timber frame homes and timber accents. The company is known for taking great time and energy to make sure that every attention to detail has been met to provide the best value there is in custom wood home living. Timberhaven's highly trained and skilled professionals, manufacturing process and kiln-dried engineered/traditional solid logs are second to none in the log home industry.
