PRESS RELEASE

Spring Workshops Largest on Record

For immediate release – April 22, 2019

This month, Timberhaven Log & Timber Homes hosted multiple events that brought a record-breaking crowd to the area. First, the company hosted a two-day technical construction workshop for nearly 30 log home builders and timber frame home builders from across the northeast, even Indiana and Minnesota. Through hands-on seminars and demonstrations our experienced professionals taught the builders how our logs and timbers are laminated, tested, profiled, graded, precision cut and prepared for delivery. Builders also learned about the company's recommended log and timber frame construction methods and had the opportunity to meet product representatives from Diamond Kote LP™ SmartSide and Pella™ windows.

The company's final and largest event to-date was a consumer planning and educational seminar which brought nearly 100 attendees to the facility. Guests from across the Commonwealth, Maryland, New York, New Jersey, and Connecticut traveled to Middleburg for the record-breaking, one-day event. Throughout the day, Timberhaven's professional staff informed attendees how to compare manufacturers, what considerations should be made when finalizing a design and purchasing land, and walked attendees step by step through the manufacturing process. Guests toured the corporate headquarters and manufacturing facility and had an opportunity to see first-hand how the company's logs and timbers are engineered, planed, profiled, and assessed for quality per Log Home Council's grading standards.

Timberhaven has hosted multiple events since its inception in April 2013, but a crowd of this magnitude has not been experienced in a log and timber home industry event, similar to this seminar, in over a decade.

Timberhaven Log & Timber Homes, LLC provides premium-quality kiln-dried log homes, log cabins, timber frame homes, and timber accents. The company is known for their standard of excellence in the log home and timber frame home industry, providing unparalleled value by incorporating creative design, superior craftsmanship, distinguished customer service and the highest quality products based on economically sound principles.
