

PRESS RELEASE

National Trade Publication Features Local Manufacturer

For immediate release: October 9, 2023

Middleburg, PA – Timberhaven Log & Timber Homes is proud to announce that one of its custom-built log homes has been prominently featured in *Log Cabin Homes* magazine's most popular issue of the year—the 2025 Annual Buyers Guide. This special edition highlights the finest examples of log and timber home design, craftsmanship, and lifestyle inspiration, and the featured Timberhaven home is no exception.

The 3,391 square foot custom log home, located in Palmyra, PA, was built with Timberhaven's premium kiln-dried traditional solid logs, using a 6x8 D profile and the timeless mortise and tenon corner assembly. This stunning 3-bedroom, 3.5-bath residence, which is showcased in a six-page spread, represents the pinnacle of log home design.

Key highlights of the log home include:

- With its soaring stone fireplace, the great room is the centerpiece of the home featuring exposed heavy timber post and beam trusses, creating a cozy yet grand atmosphere.
- The custom kitchen is a chef's dream with unique features such as a live-edge monkey pod countertop and workhorse island, seamlessly integrating beauty and function.
- Wrapped in glass on two sides, the dramatic dining room boasts a cathedral ceiling that invites natural light and offers panoramic views of the surrounding landscape.
- The spacious primary bedroom retreat features a stunning wall of glass on the gable end, offering a private sitting area perfect for relaxation and wildlife viewing.
- A welcoming front porch and a sprawling outdoor space situated on the rear of the home, provide the perfect setting for entertaining or peaceful solitude amidst nature.

The homeowners, who chose Timberhaven for their exceptional craftsmanship and dedication to quality, enjoy frequent visits from local wildlife and the serene beauty of their property.
